ANY lumber you purchased for building purposes three years ago, at the beginning of the European war, cost you more than twice as much in terms of products as the same material will cost you today. In other words, your lumber purchasing power has doubled, and then some, in three years.

There is increasing lumber has increased little in price, while farm products have increased much. This is the time, then, for you to build what you need in farm structures—a new house, a barn, a silo, a grain bin, sheds, cribs, hog houses, etc.

We can help you plan your farm buildings or farm frame. It will be a pleasure to serve you. We can supply everything you will need from the foundation up—in the right quality and at a reasonable price.

ESTHONIA FORMERLY A RUSSIAN PROVINCE VICTIMIZED BY HUNS

LONDON, Sept. 14.—(Associated Press.)—The Esthonian people, who were formerly a part of the Russian Empire, are now being victimized by the Huns. The Huns are now in the Esthonian provinces, and are committing many crimes against the Esthonian people. The Esthonian people are now being forced to work for the Huns, and are being treated very badly. The Esthonian people are now being forced to work for the Huns, and are being treated very badly. Trade at Home Announcement No. 8

Don't Deceive Yourself

Into Thinking That it Adds Dignity and Exclusiveness to Buy Away From Your Home Town

REMEMBER THE HOME MERCHANTS ARE SUPPLIED BY THE SAME MANUFACTURERS AS THE LARGE CITY STORES. THEY HAVE THE SAME LINES FROM WHICH TO CHOOSE AND INVARIABLY WILL SELECT THE BEST AND SELL AT A LOWER PRICE—LOWER SELLING EXPENSES OF THE HOME MERCHANTS MAKE THIS POSSIBLE.

Some people, laboring under a false impression in the belief that it adds to their dignity and exclusiveness, take great pleasure in boasting that their wearing apparel and other personal belongings come from some big city store. It matters not so much if the "metropolitan" dealer who supplies them is some obscure merchant on a side street, or a store which caters only to so-called "bargain seekers," as long as the package when delivered bears the metropolitan label.

These persons seem to find real joy and delight in saying, "I bought this dress at the city," or "Just see the shoes I purchased today by mail for \$1.98." But these boasts have the desired effect only upon those who in nature are like the boasters. To the truly refined and to the loyal home-buyers such boasts are regarded as nothing less than vulgar. While as a matter of fact there is absolutely no ground for the belief that an article is better or more "exclusive" because it comes from out of town. The up-to-date mer-

chants are in constant touch with the leading markets of this country as well as those of foreign cities. They make frequent trips to the big buying centers and bring to your home town the very best that is to be found anywhere. THEY BUY FROM THE SAME MANUFACTURERS AS THE LARGE CITY STORES. Great care and pains are taken in the selection of the stocks of the home merchant as he wants to bring to his home customers and friends only the very best values. A careful investigation and comparison will usually find those so-called "exclusive" articles right here at home and at a much lower price than in the larger city stores. Lower rents, lower selling expenses, smaller profits, etc., make this saving possible.

While foreign buying has not become a serious menace in Corpus Christi it does exist to an extent which we believe will be greatly lessened if you will but think seriously over this important matter before carrying your money out of town or send it to a far-away mail order house.

Merchants, banking and other business interests of Corpus Christi are in hearty accord with the "Buy at Home" movement and have pledged their co-operation and support towards success of the campaign:

ACCURATE MACHINE-GUN FIRE PRINCIPAL NEED OF COMBAT AVIATORS

SOMEWHERE IN FRANCE, Sept. 14.—(Associated Press.)—Accurate machine gun fire is the chief requirement of the modern combat aviator. The machine gun is the principal weapon of the aviator, and it is the accuracy of the machine gun fire that is the principal need of the combat aviator.
